¹ United States total for number of firms does not agree with summation of individual State figures because some firms operate in more than one State.² Figures for annual pay roll, paid employees, and weekly pay roll include data for 2 "Administrative offices and other auxiliary units." However, data for these 6 establishments are not included in United States total.

THE CENSUS ACT OF JUNE 19, 1948

(PUBLIC LAW 671--80TH CONGRESS)

(CHAPTER 502--2D CONGRESS)

(S.554)

AN ACT

To provide for the collection and publication of statistical information by the Bureau of the Census.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Director of the Bureau of the Census, hereinafter referred to as the Director and the Bureau, respectively, is authorized and directed to take, compile, and publish the censuses of manufacturers, of mineral industries, and of other businesses, including the distributive trades, service establishments, and transportation (exclusive of means of transportation for which statistics are required by law to be filed with a designated regulatory body), in the year 1949 and every fifth year thereafter, and each such census shall relate to the year immediately preceding the taking thereof: Provided, That the census of manufacturers shall not be taken in 1949. The censuses herein provided for shall include the United States and its Territories and such possessions as may be determined by the Director with the approval of the Secretary of Commerce.

(b) That the Director is further authorized to make such surveys as are deemed necessary to furnish annual and other interim current data on the subjects covered by the censuses provided for in this and other Acts.

Sec. 2. That the following sections of the Act of June 18, 1929 (46 Stat. 21), shall apply to the censuses and surveys authorized by this Act: Section 3, as amended by section 404 of Reorganization Plan Numbered II (53 Stat. 1436), and sections 5, 7, 8, 9, 10, 11, 12, and 15, except that the Director may also authorize the expenditure of necessary sums for travel expenses for attendance at training courses held by the Bureau: Provided, That in connection with any survey conducted by the Director pursuant to

section 1 (b) of this Act, the provisions of sections 9 and 10 of the Act of June 18, 1929 (46 Stat. 21), with respect to the answering of questions and furnishing of information, shall apply only to such inquiries as are within the scope of the schedules and of the type and character heretofore used in connection with the taking of complete censuses under the Act of June 18, 1929 (46 Stat. 21), or in connection with any censuses hereafter taken pursuant to section 1 (a) of this Act and the Act of June 18, 1929: Provided further, (a) That sections 9 and 10 of the Act of June 18, 1929 (46 Stat. 21), shall apply to surveys conducted pursuant to section 1 (b) of this Act only after publication of a determination with reasons therefor certified by the Director with the approval of the Secretary of Commerce that the information called for is needed to aid or permit the efficient performance of essential governmental functions or services; or has significant application to the needs of the public, business, or industry and is not publicly available from nongovernmental or other governmental sources; (b) that in the case of any new survey said sections 9 and 10 shall apply only after public notice, given by the Director at least thirty days in advance of requesting a return, that such survey is under consideration; (c) that the provisions of said sections 9 and 10 shall not apply to any survey more frequent than annual conducted pursuant to section 1 (b) of this Act; and (d) that the provisions for imprisonment provided by said sections 9 and 10 shall not apply in connection with any survey conducted pursuant to section 1 (b) of this Act.

Sec. 3. That inquiries, and the number, form, and subdivisions thereof for the censuses and surveys provided for in this Act, shall be determined by the Director, with the approval of the Secretary of Commerce. To the extent that the provisions of this Act conflict with the provisions of any other Act, pertaining to the Bureau of the Census, the provisions of this Act shall control: Provided, That nothing herein shall be deemed to revoke or impair the authority of any other Federal agency with respect to the collection or release of information.

Approved June 19, 1948.

APPENDIX B

KIND-OF-BUSINESS CLASSIFICATIONS

Each retail store was assigned a kind-of-business classification for purposes of preparing summary totals by kinds of business. In general, the kind-of-business classification assigned was based on the analysis which each store reported of its total sales by lines of merchandise. This permitted classification of the report for the entire store into a single kind-of-business category based on the proportion of total sales accounted for by each of the individual lines reported. For some kinds of business, however, such as drug stores, department stores, and variety stores, usual trade designation, rather than the predominant merchandise lines, determine classification.

It should be observed that kind-of-business classifications are not interchangeable with merchandise-line classifications. Food stores, for instance, sell more than food, and food also is sold in other kinds of stores, including department and variety stores. Likewise, apparel, furniture, and drugs are sold in many stores not classified as apparel, furniture, or drug stores.

The kind-of-business classification of each warehouse, administrative office, and auxiliary unit is based on the classification of the stores in the parent organization which it services or of which it is an auxiliary.

The kinds of business defined below are arranged by groups, with special attention given to principal kinds of business within each group. Significant changes in definition since the 1939 Census of Business are noted.

Food Group

The Food Group includes retail establishments primarily engaged in selling food for home preparation and consumption. Establishments primarily engaged in selling prepared food and drinks for consumption on the premises, such as eating and drinking places, are included in classifications under those names, and stores primarily engaged in selling packaged beers and liquors are classified separately as "Liquor stores."

Grocery stores (with or without fresh meat)

These stores are primarily engaged in selling at retail a wide variety of canned or frozen foods, such as vegetables, fruits, and soups, in addition to dry groceries, either packaged or in bulk, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour, and crackers, and other processed food and nonedible grocery items. Smoked and prepared meats, and fresh fish and poultry, fresh vegetables and fruits are also often sold. These stores are classified as "Grocery stores, with fresh meat" or "Grocery stores, without fresh meat" according to whether they do or do not handle fresh meats (frozen or unfrozen).

Meat markets

These are retail establishments primarily engaged in selling fresh meats. They also may sell cured meats, poultry, fish, dairy products, eggs, and other commodities. These stores may butcher animals on their own account, or they may buy from others.

Fish (sea food) markets

These are retail establishments primarily engaged in selling fresh or cured fish, oysters, shellfish, and other sea foods.

Fruit stores, vegetable markets

These are retail establishments primarily engaged in selling fresh fruits and fresh vegetables. They are frequently found in public or municipal markets or are operated as roadside stands. Not included are stands operated by farmers selling only their own produce.

Candy, nut, confectionery stores

These are retail establishments primarily engaged in selling candy, nuts, sweetmeats, and other confections. Operation of a soda fountain or lunch counter is common. Establishments selling merchandise through coin-operated vending machines are included here if their principal line of merchandise is candy, nuts, or other confections.

Dairy products stores

These are retail establishments primarily engaged in selling such dairy products as milk, cream, butter, cheese, ice cream, and related products to over-the-counter customers. This classification is differentiated from milk dealers in method of distribution and not by kind of commodity. Establishments selling these products for immediate or on-premise consumption are classified as "Lunch counters, refreshment stands."

Milk dealers

These are retail establishments primarily engaged in selling milk and cream by daily delivery to the home. They may also sell other dairy products, such as butter, cheese, and eggs, and engage in pasteurizing operations incidental to the distribution of fluid milk. Establishments primarily engaged in the retail route distribution of fluid milk or cream and which also manufacture dairy products are included in this industry. Dealers who sell primarily to retailers or to hotels and restaurants are considered wholesalers.

Bakery products stores

These are single-unit retail establishments primarily engaged in selling bakery products, such as bread, cakes, or pies, whether or not the products are produced on the premises. In addition, bakery products stores of multiunit bakeries with no baking on the premises are included. Bakery products stores are divided into two categories, "Bakery products stores without baking on the premises," and "Bakery products stores with baking on the premises."

Units of multiunit bakeries, which bake on the premises, were not included in the 1948 Business Census. In the 1939 census the classification "Bakeries" included all bakery products stores not baking on the premises, and, in addition, those bakery products stores with baking on the premises, for which 1939 sales were less than \$5,000.

Caterers, included with bakeries in the 1939 census, are now classified separately, and are included in the major group "Eating and Drinking Places."

Egg, poultry dealers

These are retail establishments primarily engaged in selling eggs and poultry. These stores may sell live poultry, slaughter and clean poultry for their own account and sell dressed fowl, or sell fowl dressed and cleaned by others.

Delicatessen stores

These are retail establishments primarily engaged in selling cooked foods such as cooked meats, prepared salads, and baked beans, ready for consumption in the home without further preparation. They often carry canned and bottled goods, groceries, beer and wine, and tobacco products, and frequently serve meals.

Other food stores

These are retail establishments primarily engaged in selling specialized foods, such as coffee, tea, spices and health foods. This industry includes house-to-house coffee, tea distributors.

Eating and Drinking Places

This group includes retail establishments selling prepared foods and drinks for consumption on the premises, and also lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption. Restaurants and lunch counters operated as leased departments within other retail businesses were treated as part of the establishment in which they were located. However, restaurants and lunch counters operated as leased departments or concessions in businesses other than retail, are included in this classification as eating and drinking places.

Restaurants, cafeterias

These are retail establishments primarily engaged in selling complete meals and having full table service facilities.

Caterers

These are retail establishments primarily engaged in the preparation of food, and serving of that food elsewhere.

Lunch counters, refreshment stands

These are retail establishments primarily engaged in selling limited lines of refreshments such as fruit juices, soft drinks, or short-order meals for immediate or on-premise consumption. They do not have full table service facilities. The classification also includes operators primarily engaged in selling soft drinks through coin-operated vending machines.

Drinking places

These are retail establishments primarily engaged in selling drinks such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on the premises, and usually known as bars, beer gardens, cabarets, night clubs, saloons, tap rooms, and taverns. The sale of food frequently accounts for a substantial portion of the receipts of these establishments.

General Merchandise Group, General Stores

This group includes retail stores which sell a number of lines of merchandise such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food. The stores included in this group are known as department stores, variety stores, dry goods stores, general merchandise stores, general stores, etc. Mail-order houses in the general merchandise field are included, but not as a separate kind of business.

General stores

These are retail establishments usually located in rural communities and primarily engaged in selling a general line of merchandise of which the most important line is food, and the more important subsidiary lines are notions, apparel, farm supplies, and gasoline. These stores are usually known as country general stores.

Department stores

These are retail stores carrying a general line of apparel, such as suits, coats, dresses, and furnishings; home furnishings, such as furniture, floor coverings, curtains, draperies, linens, major household appliances, and housewares such as table and kitchen appliances, dishes, and utensils. These and other merchandise lines are normally arranged in separate sections or departments with the accounting on a departmentalized basis. The departments and functions are integrated under a single management. Establishments included in this classification must normally employ 25 or more persons.

In the 1939 Census of Business, the size basis for this classification was 1939 sales of \$100,000 or more, instead of number of employees.

Dry goods, general merchandise stores

These are retail establishments primarily engaged in selling piece goods, or a combination of men's and women's apparel, dry goods, hardware, homewares or home furnishings, etc. Yarn and notion shops are included in this category. Stores selling commodities covered in the definition for Department Stores, but normally having less than 25 employees, are also included in this industry.

Variety stores

These are retail establishments primarily engaged in selling a variety of merchandise in the low and popular price ranges, such as stationery, gift items, women's accessories, toilet articles, light hardware, toys, housewares, confectionery, etc. These stores frequently are known as "5 and 10 cent" stores and "5 cents to a dollar" stores, although merchandise is usually sold outside these price ranges. Sales usually are made on a cash-and-carry basis with the open selling method of display and customer selection of merchandise.

Apparel Group

This group includes stores primarily engaged in selling clothing, shoes, hats, underwear, and related articles for personal wear and adornment. Custom tailors carrying stocks of materials and furriers are included in this group.

Men's, boys' clothing stores

These are retail establishments primarily engaged in selling men's and boys' overcoats, topcoats, suits, and work clothing. Hats, shoes, accessories, and furnishings such as shirts, gloves, hosiery, and underwear are frequently but not always carried.

Men's, boys' furnishings stores

These are retail establishments specializing in the sale of men's and boys' shirts, hats, underwear, hosiery, gloves, and other furnishings.

Family clothing stores

These are retail establishments primarily engaged in selling clothing, furnishings, and accessories for men, women, and children, without specializing in any one line.

Women's ready-to-wear stores

These are retail establishments primarily engaged in selling women's coats, suits, and dresses.

Millinery stores

These are retail establishments primarily engaged in selling ready-to-wear and custom made millinery, including, women's hat frames and trimmings.

These are retail establishments primarily engaged in selling women's hosiery.

Corset, lingerie stores

These are retail stores primarily engaged in selling women's corsets, girdles, brassieres, negligees, underwear, or related garments.

Apparel accessory, specialty stores

These are retail establishments primarily engaged in selling women's miscellaneous apparel and accessories, such as blouses, knit goods, gloves, handbags, and costume jewelry.

Shoe stores

These are retail establishments primarily engaged in selling shoes. The group includes men's shoe stores; wom-

en's shoe stores; family shoe stores; and children's, juveniles' shoe stores. Family shoe stores are primarily engaged in selling footwear for men, women, children, and infants without specializing in any one line. The other classifications specialize in the line indicated by the title.

Custom tailors

These are retail establishments primarily engaged in making and selling men's and women's outer clothing (except fur apparel), to individual order from stocks of material carried on their shelves. Tailor shops primarily engaged in clothing repair and alterations are included in the Service Trades. Home dressmakers were not included in the Census of Business.

Furriers and fur shops

These are retail establishments primarily engaged in making fur coats and other fur apparel to custom order and selling ready-made fur coats and other fur apparel. Establishments primarily engaged in fur repair and storage, and which may also sell a minor amount of fur apparel, are included in the Service Trades.

Children's and infants' wear stores

These are retail establishments primarily engaged in selling children's and infants' clothing, furnishings, and accessories. Such establishments may specialize in either children's or infants' wear or they may sell a combination of children's and infants' wear.

Other apparel stores

These are retail establishments primarily engaged in selling specialized lines of apparel and accessories not elsewhere classified, such as raincoats, bathing suits, riding apparel, and umbrellas.

Furniture, Furnishings, Appliance Group

This group includes stores selling goods used for furnishing the home, such as furniture, floor coverings, draperies, glass and chinaware, domestic stoves, refrigerators, and other household electrical and gas appliances. Establishments selling electrical and gas appliances are included in this group only if the major part of their sales consist of articles for home use. Dealers primarily engaged in selling second-hand furniture are classified as "second-hand stores."

Stores furnishing interior decorating services were a separate kind of business in 1939, but are now classified according to the merchandise handled.

Furniture stores

These are retail establishments primarily engaged in selling household furniture. These stores may also sell home furnishings, major appliances, and floor coverings. Establishments primarily engaged in selling office furniture are classified in Wholesale Trade.

Floor covering stores

These are retail establishments primarily engaged in selling floor coverings, such as rugs, carpets, linoleum, and related products. Establishments included in this industry which may incidentally perform installation, are to be distinguished from contractors primarily engaged in installing floor coverings, which are not included in the 1948 Business Census.

Drapery, curtain, upholstery stores

These are retail establishments primarily engaged in selling draperies, curtains, and upholstery. Establishments primarily engaged in upholstering or repairing furniture are classified in the Service Trades.

China, glassware, metalware stores

These are retail establishments primarily engaged in selling china, glassware, crockery, tinware, enamelware, and aluminumware for kitchen and table use. Establishments primarily engaged in selling table silverware are classified as "Jewelry stores."

Antique stores

These are retail establishments primarily engaged in selling antique furniture, home furnishings, and objects of art. Stores selling reproductions of period furniture are classified as "Furniture stores," and those primarily engaged in furniture restoration and repair in the Service Trades.

Other home furnishings stores

These are retail establishments primarily engaged in selling such commodities as pictures, frames, lamps and shades, awnings, window shades, venetian blinds, tents, flags, and banners.

Household appliance stores

These are retail establishments primarily engaged in selling electric and gas refrigerators, stoves, and other household appliances, such as electric irons, percolators, hot plates, and vacuum cleaners. Many such stores also sell radios and television sets. Retail stores operated by public utility companies and primarily engaged in the sale of electric and gas appliances for household use are classified in this industry, as are concerns engaged in selling these items through door-to-door canvass.

Radio stores

These are retail establishments primarily engaged in selling radios and television sets. Such establishments also may sell additional lines, such as household appliances, musical instruments, or records. Radio repair shops are included in the Service Trades.

Automotive Group

This group includes retail dealers selling new and used automobiles, new parts and accessories, aircraft, motorboats, motorcycles, and automobile trailers. This group includes establishments dealing in used automobiles exclusively, but not establishments dealing exclusively in used parts (second-hand stores). Automobile repair shops maintained by establishments engaged in the sale of new automobiles are also included. Automotive distributors, the greater part of whose sales are to dealers, are classified in Wholesale Trade.

Motor vehicle (new and used) dealers

These are retail establishments primarily engaged in selling new automobiles, or new and used automobiles and trucks. These establishments frequently maintain repair departments and carry stocks of replacement parts, tires, batteries, and automotive accessories.

Motor vehicle (used) dealers

These are retail establishments primarily engaged in selling used cars and trucks, and making no sales of new automobiles.

Tire, battery, accessory dealers

These are retail establishments primarily engaged in selling automobile tires, batteries, automobile seat covers, and other automobile parts and accessories. Such establishments frequently have facilities for tire recapping and vulcanizing. Establishments dealing primarily in used parts are classified in "Tire, battery, accessory dealers (second-hand)."

Motorcycle dealers

These are retail establishments primarily engaged in selling new or used motorcycles, parts, and supplies. (Establishments primarily engaged in selling motor scooters are also included.)

Aircraft dealers

These are retail establishments primarily engaged in selling aircraft and parts for private (noncommercial) use.

Boat dealers

These are retail establishments primarily engaged in selling motorboats, yachts, other water craft, and parts and supplies. Dealers selling marine supplies to other than commercial users are also included.

Other automotive dealers

These are retail establishments primarily engaged in selling new and used passenger automobile trailers, or related automotive products, not elsewhere classified.

Gasoline Service Stations

Gasoline service stations are establishments primarily engaged in selling gasoline and lubricating oils. These establishments often carry other lines of merchandise or perform other service and repair work.

Lumber, Building, Hardware Group

This group includes retail establishments selling lumber, building materials, and basic lines of hardware, such as tools, builders' hardware, paint and glass, electric supplies, roofing materials, and other equipment and supplies for home construction. The group also includes farm equipment dealers. Establishments included in this group sell to contractors as well as to the general public. Stores primarily engaged in selling electrical or gas appliances, such as refrigerators, stoves, ranges, radios, and lamps are classified in the group "Furniture, furnishings, appliances."

Lumber yards

These are retail establishments primarily engaged in selling rough or dressed lumber, wood shingles, interior woodwork, moulding, doors, sash, frames, and other millwork. Sales are made locally, primarily to home owners, farmers, and special trade contractors. Establishments selling primarily to builders and general contractors are classified in Wholesale Trade.

Building materials dealers

These are retail establishments primarily engaged in selling building materials other than lumber and millwork, such as brick and tile, cement, sand and gravel, lime and plaster, and composition wallboard and roofing materials. Sales are made locally, primarily to home owners, farmers, and special trade contractors. Establishments selling primarily to builders and general contractors are classified in Wholesale Trade.

Paint, glass, wallpaper stores

These are retail establishments primarily engaged in selling paint, glass, and wallpaper, or any combination of these lines. Establishments primarily engaged in installing glass were not included in the 1948 Business Census.

Heating and plumbing equipment dealers

These are retail establishments primarily engaged in selling plumbing supplies and heating and air conditioning equipment. Establishments primarily engaged in plumbing installations, which may sell incidental amounts of supplies and equipment, were not included in the 1948 Business Census.

Electrical supply stores

These are retail establishments primarily engaged in selling electrical supplies, such as lighting fixtures, fluorescent lamps, cables, and fuse boxes for home construction purposes. Stores selling electrical appliances such as refrigerators, stoves, radios are classified as "Household appliance stores."

Hardware stores

These are retail establishments primarily engaged in selling a number of basic hardware lines such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials. These establishments may also sell farm implements.

Farm equipment dealers

These are retail establishments primarily engaged in selling farm tractors, reapers, mowers, plows, wagons, and related farm equipment. These establishments may sell a combination of the basic lines of hardware, such as tools, builders' hardware, housewares, cutlery and related lines.

Drug and Proprietary StoresDrug stores

These are retail establishments engaged in selling prescription drugs only or in combination with such lines of merchandise as proprietary medicines, cosmetics, toiletries, tobacco, candy, liquor and novelty merchandise. Prescription sales are required. The stores are included in the classifications "Drug stores, with fountains" or "Drug stores, other," depending upon whether or not a fountain is operated.

Proprietary stores

These are retail establishments engaged in selling drugs and medicines in any combination with such lines as cosmetics, toiletries, tobacco, candy, liquor, and novelty merchandise. No prescription drugs are sold. The stores are included in the classifications "Proprietary stores, with fountains" or "Proprietary stores, other," depending upon whether or not a fountain is operated.

Liquor Stores

Liquor stores are retail establishments primarily engaged in selling at retail, packaged alcoholic beverages such as ale, beer, wine, and whisky for consumption off the premises. Liquor stores operated by States, counties, and municipalities are included. Stores selling prepared drinks for consumption on the premises are classified as "Drinking places."

Second-Hand Stores

This group includes stores primarily engaged in selling used merchandise. The separate classifications in this group are: Furniture stores; Tire, battery, accessory dealers; Clothing, shoe stores; Book stores; Pawn shops; and Other second-hand stores. Pawn shops and Pawn brokers are included in the classification "Pawn shops" regardless of principal source of receipts. Many dealers classified in this group do repair work both in preparing their own merchandise for resale and upon customers' goods. Establishments deriving the major portion of their gross income from service and repair work are classified in the Service Trades. Used car dealers are classified in the Automotive Group.

Other Retail Stores

This group consists of establishments specializing in the merchandise indicated by the following classification titles.

Fuel dealers, except fuel oil

These are dealers primarily engaged in selling, at retail, coal, coal and wood, or a combination of the lines of coal, wood, bottled gas, fuel oil, and ice.

Fuel oil dealers

These are dealers primarily engaged in selling fuel oil at retail. Stores primarily engaged in selling fuel oil burners are classified as "Heating and plumbing equipment dealers," and dealers primarily engaged in installing and servicing fuel oil burners are not included in the 1948 Business Census.

Ice dealers

These are dealers primarily engaged in selling ice at retail.

Hay, grain, feed stores

These are stores primarily engaged in selling, at retail, hay, grain, and feed. These stores may also sell fertilizer. Stores primarily engaged in selling farm implements are classified as "Farm equipment dealers."

APPENDIX D

EXPLANATION OF TERMS

Active proprietors (See Personnel.)

City size

Each retail store included in the 1948 Census of Business was classified into one of nine city-size groups depending on the number of inhabitants in the city in which the establishment was located. At the time city sizes were established for the 1948 Census of Business, final figures from the 1950 Census of Population were not available and, therefore, preliminary population figures were used. Differences between these and final population figures affect slightly the retail trade data presented in this volume in relation to final population data from the 1950 Census of Population to be presented for similar size groups. Those unincorporated areas, classified in 1940 as urban under special rule by the Bureau of the Census, have been treated as incorporated places in the 1948 Census of Business. They are included in the appropriate city-size groups in both the 1939 and 1948 censuses. Cities of less than 2,500 inhabitants, unincorporated places, and rural areas are included in city-size group "Remainder of areas."

The nine city-size groups based on number of inhabitants are:

- Cities of 500,000 or more
- Cities of 250,000 to 499,999
- Cities of 100,000 to 249,999
- Cities of 50,000 to 99,999
- Cities of 25,000 to 49,999
- Cities of 10,000 to 24,999
- Cities of 5,000 to 9,999
- Cities of 2,500 to 4,999
- Remainder of area (inc. cities of less than 2,500)

Cooperatives (See Operating types.)

Credit

Credit sales.--In the Census of Business a credit sale is regarded as any sale in which all or part of the payment for merchandise purchased is deferred until some time after delivery of the merchandise. The total amount of credit sales includes the amount of down payment and amount allowed for trade-in, as well as the unpaid balance. The total does not include interest or carrying charges.

Charge account sales.--In the Census, charge account, or open account sales, are credit sales in which the amount of purchase is charged to the account of the purchaser, and in which settlement is made at the end of a weekly, monthly or other billing period depending upon the policy of the store. There are usually no interest or carrying charges involved in these transactions.

Installment sales.--In the Census, installment sales include credit sales in which the purchaser agrees to pay unpaid balances in two or more payments of specified amounts over a stipulated period of time. If an interest or carrying charge is added to the selling price it is regarded as "other income" and is not included in the sales figure reported. Frequently installment sales are evidenced by notes secured by liens such as chattel mortgages on the goods sold. Retail sales thus secured are classed as installment sales, even though the plan might require settlement in a single payment. Even if the installment notes are immediately discounted, as in many motor vehicle sales, the transaction is treated as an installment credit sale for the full amount including any trade-in allowance.

Balances due from customers.--This includes accounts and notes receivable resulting from sales to customers that were outstanding on the books of the business as of December 31, 1948, and December 31, 1947. They do not include accounts transferred to finance companies, banks, or other institutions even though the retailer may continue to collect payments.

Stores analyzing sales.--These are stores which indicated in their 1948 Census of Business report whether or not they had any credit sales during 1948.

Stores with cash sales only.--These are stores which indicated in their 1948 Census of Business report that no part of their sales were credit sales.

Stores with credit sales.--A store which reported any amount of credit sales was included in this category, regardless of the proportion of its cash and credit sales.

Stores whose credit sales are all charge account sales.--These are credit stores where the only credit extended is on charge or open accounts. These stores usually have considerable cash sales in addition to the charge account sales.

Stores whose credit sales are all installment sales.--These are credit stores all of whose credit sales are installment sales. These stores also usually make cash sales in addition to their installment sales.

Stores with both charge account and installment sales.--These are credit stores whose credit sales are of both types, charge account and installment.

Legal form of organization

All retail establishments included in the 1948 Census of Business were classified into one of the following legal forms of organization: Individual proprietorships; partnerships; corporations; State, county, and municipal stores; other legal forms.

Individual proprietorships.--These are retail establishments owned by one individual or person. "Individual proprietorships without active proprietors" are establishments in which the owners did not devote the major portion of their working time to the businesses during November 1948. "Individual proprietorships with active proprietors" are those in which the owners did devote the major portion of their working time to the businesses during November 1948.

Partnerships.--These are retail establishments owned by two or more persons, each of whom has a financial interest in and responsibility for the business. In "Partnerships without active proprietors" none of the partners devoted the major portion of their working time to the business during November 1948.

Corporations.--These are retail establishments owned by an organization or company legally incorporated under State laws. Cooperative associations incorporated under either regular corporation laws or under the special cooperative association laws are included in this legal form.

State, county, and municipal stores.--These establishments include only liquor stores owned and operated by State, county, and municipal governments.

Other legal forms.--These are retail establishments having ownership under legal forms not defined above. Included in this legal form are cooperative associations not incorporated under the regular corporation laws or under special cooperative associations laws and other miscellaneous ownership types such as estates, receiverships, etc.

Mail-order houses (See Operating types.)

Merchandise inventories

As used in the Census of Business the term "Inventories" means stocks of goods held for sale, valued at cost. Merchandise inventories in retail stores are the cost value of stocks of goods held for sale in the stores. Merchandise inventories in warehouses of retail multiunit organizations represent the cost value of goods on hand in warehouses, held primarily for distribution to retail stores within their own organization.

Merchandise inventories do not include the value of fixtures, furnishings, or other equipment used in the warehouse or store operations. Inventories were reported for the beginning and close of the calendar year 1948 except for some businesses which used a fiscal year rather than the calendar year for accounting purposes. Data so reported have been accepted and included in the tabulations without further adjustment.

Merchandise lines

Merchandise lines are groups of related commodities or commodities grouped on a departmental basis which were established, for census purposes, in consultation with representatives of trade organizations, market research groups, statistical organizations, and others. Twenty-six sets of merchandise lines referred to as "patterns" were developed, one for each group of related kinds of business, to fit the departmental organization and the records of reporting stores. This made it possible for the great majority of stores to report their sales by merchandise line.

In classifying sales by merchandise line, a specified commodity item may be grouped differently in different patterns. For example, the item "Tires" is part of the merchandise line "Parts and accessories" in the pattern used for "Motor vehicle dealers." However, in the pattern used for "Gasoline service stations" it is part of the merchandise line "Tires (new and used)." Individual differences in departmental organization of stores in the same kind of business occasionally leads to reporting sales of the same commodity in different merchandise lines. For example, one motor vehicle dealer may include sales of seat covers in the merchandise line "Passenger cars" when they are installed in new cars, whereas another may include the same item under "Parts and accessories." The reporting patterns of all kinds of business are shown in appendix G of this volume.

Stores analyzing merchandise line sales, total.--This refers to the number and total sales of stores which analyzed their sales by merchandise line. The total sales of stores analyzing is the sum of the sales of the various merchandise lines shown in the table.

Stores not analyzing merchandise line sales.--This refers to the actual or estimated number and total sales of stores which did not furnish an analysis of merchandise line sales.

Merchandise vending machine operators (See Operating types.)Operating types

Cooperatives.--A retail cooperative store is one which is owned by an association of consumers of the merchandise handled by the store. Most of them are incorporated under State cooperative association laws. In general, the distinguishing features of a cooperative are patronage dividends based on the volume of purchases by the member, and a limitation of one vote per member regardless of the amount of stock owned. The stores are open to the public, as a rule, but are generally patronized primarily by members of the association operating the business.

There are two types of cooperatives included in this category, "Consumer cooperatives" in which the membership is primarily nonfarmers, and "Retail stores of farm cooperatives" in which the membership is primarily farmers. Such farmer organizations frequently function as coopera-

tive marketing associations and, in addition, operate retail stores to supply their membership with products necessary for running a farm, e.g., hay, grain, feed, gasoline, and oil. Only the retail stores of such cooperative associations are included in Retail Trade.

Direct-selling organizations.--These establishments are the sales offices or headquarters from which crews of canvassers operate to sell from house-to-house. However, milk dealers who make door-to-door deliveries and bakeries which sell house-to-house are, for census purposes, not considered to be direct-selling organizations.

Leased departments.--For census purposes, a retail leased department is a separately owned business operated as a department of another retail establishment. While the leasee owns the merchandise in his department, his merchandise policies are integrated with those of the main store. The main store usually provides services such as credit, delivery, heat, power, and protection.

Leased departments or concessions primarily engaged in selling merchandise at retail, but operating within non-retail establishments, such as hotels, railroad terminals, etc., were classified as separate retail trade establishments in the 1948 Census and separate reports covering the activities of these leased departments or concessions were obtained and included in Retail Trade as separate places of business.

Mail-order houses.--These are establishments selling merchandise primarily by mail from catalogs and direct-mail solicitation. The retail stores of mail-order concerns are not included in this category.

Merchandise vending machine operators.--These are businesses whose primary source of receipts is from merchandise sold through coin-operated vending machines. For census purposes, the office or warehouse from which the owner of the machine operates or in which he keeps his stock of merchandise is considered to be the establishment location. Vending machines are usually placed in factories, office buildings, institutions, or in other retail businesses, the operator usually paying a fee, either fixed or a percentage of the machine's receipts, for the privilege of placing the machine. The operator owns the merchandise in the machines and services them.

Paid employees (See Personnel.)Part and full-year operations

Stores operated entire year.--Included in this category were:

(1) Stores which commenced operations on or before January 1, 1948, and which were still in operation at the end of 1948.

(2) Stores which changed ownership during 1948, and for which data for the 1948 operations of the previous owner were included in the report.

(3) Seasonal stores, which are normally operated only for a part of the year.

Stores not operated entire year.--Stores included as part-year stores were:

(1) New business, commencing operations after January 1, 1948.

(2) Stores which changed ownership during 1948, and for which no data on the 1948 activities of the previous owner were available.

(3) Stores going out of business during 1948.

Pay roll

Pay roll, entire year, includes all compensation (salaries, wages, commission, and bonuses) paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation for proprietors or firm members of unincorporated businesses. Excluded from pay roll are the value of payments in kind, such as free meals, lodgings, etc., or amounts received by employees as tips, etc. Pay roll is reported before deduction for Social Security, income-tax withholding, insurance dues, etc.

Weekly pay roll includes compensation for persons who are actually on the pay roll during the specified workweeks. Stores whose pay roll period was other than a week were requested to adjust the figures to a weekly basis.

Period established or acquired

The period established or acquired of each retail store was the year in which the store was established, or acquired under the ownership at the end of 1948. Mere change of name, without a change of the actual owners was not considered a change of ownership, neither was a change of location of the establishment if it continued at the new location under the same ownership. However, a change in the legal form of organization, e.g., from partnership to corporation, was considered a change in ownership, and the acquisition date reported was that in which the change of legal form took place.

Establishments which, at the end of 1948, were operated by original owners were classified by date of establishment. Others were classified by latest date the business changed hands prior to the end of 1948.

Personnel

Paid employees.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the pay roll for a specified workweek. Data for the workweeks ended nearest March 15, July 15, and November 15 are included in the Retail Trade tables.

"Full workweek employees."--"Full workweek employees" include employees whether regular or seasonal, who, for a specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Active proprietors of unincorporated businesses.--Active proprietors include owners or partners of unincorporated businesses who devoted the major portion of their time to operation of the business during November 1948.

Unpaid family workers of unincorporated businesses.--Unpaid family workers consist of the number of family members (wives, sons, daughters, etc.) who worked in the business during November 1948, but were not paid a wage or salary. Family workers paid a wage or salary are included in the count of employees and their compensation included in pay roll.

Employee size.--Each retail store included in the 1948 Census of Business was classified into one of eleven employee-size groups on the basis of the total number of employees on the pay roll for the workweek ended nearest November 15, 1948. Active proprietors and unpaid family workers were not regarded as employees in establishing employee sizes. Seasonal businesses and businesses which commenced operations during 1948 are included in the employee-size group "No paid employees" if they were not in operation during the week of November 15; if such stores were in operation during that workweek, they are included in the appropriate size group on the same basis as stores operating the entire year.

The employee-size groups used in the Retail tables are:

No paid employees	6 or 7 paid employees
1 paid employee	8 or 9 paid employees
2 paid employees	10 to 19 paid employees
3 paid employees	20 to 49 paid employees
4 or 5 paid employees	50 to 99 paid employees
	100 or more paid employees

Proprietors (See Personnel.)

Retail establishments

Establishments consist of all retail stores as well as central warehouses, administrative offices, and other units of multiunit organizations which service or are auxiliary

to retail stores of the organization. The count represents number of establishments in business at end of 1948.

Warehouses, administrative offices, and auxiliary units.--These are locations of a multiunit organization which service or are auxiliary to the retail stores within the organization. They do not ordinarily sell merchandise at retail. In the Retail Trade tables, they are classified into the following groups:

Warehouses.--These are locations of a multiunit organization which maintain a supply of merchandise and which are primarily engaged in distributing that merchandise to retail stores within their own organization. Establishments having other auxiliary functions in addition to warehousing activities are classified as warehouses.

Administrative offices.--These are locations such as central offices, executives offices, and district offices which are primarily engaged in performing administrative functions for the retail stores within their own organization.

Other auxiliary units.--These are locations such as buying offices, garages, receiving or shipping offices, etc., which are primarily engaged in performing auxiliary functions, other than warehousing and administration, for the retail stores within their own organization.

Stores.--Stores are separate places of business primarily engaged in selling merchandise at retail. In addition to ordinary retail stores such as grocery and hardware stores, this classification includes eating and drinking places, milk dealers, gasoline service stations, market stands (except farmers' stands), lumber and coal yards, mail-order houses, direct selling (house-to-house) establishments, and establishments selling through coin-operated vending machines. Only business establishments obtaining their primary source of receipts from retail sales of merchandise are classified as retail.

Data for retail leased departments located in retail stores are combined with data for the store in which located and are not reported or counted as separate stores. Retail leased departments not located in retail stores, however, are reported and tabulated as separate retail stores. Retail Trade tables exclude "service" leased departments, such as watch repair, beauty shop, shoe repair, and other leased departments deriving a major source of receipts from services to customers rather than from sale of merchandise.

Although the 1948 Census of Business enumerated all retail stores regardless of size, tabulations exclude data for stores which operated during the entire year 1948 but had sales of less than \$500. In 1939, the corresponding figure for exclusion from the tabulations was \$100.

Sales size (See Sales and receipts.)

Sales and receipts

Sales.--Sales include total receipts from customers during 1948, after deduction of refunds or allowances for merchandise returned by customers. Sales include receipts from repairs and from other services to customers, and sales for resale, but exclude amounts not received from customers, such as income from investments, rental of real estate, etc. They do not include the amount of local and State sales taxes or Federal excise taxes which are collected by the store directly from customers, and paid directly by the store to a local, State, or Federal taxing agency. Gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed along to the retailer are included.

The sales figures therefore represent total sales and receipts of all establishments primarily engaged in Retail Trade. They do not include sales at retail accounted for by manufacturers, wholesalers, service establishments, and other businesses whose primary activity is other than Retail Trade.

Receipts from repairs and other services.--These include all receipts from customers except those from sale of mer-

chandise. They do not include amounts which are not received from customers, such as income from investments, rental, or real estate, etc.

Sales for resale.--Sales for resale are receipts for goods sold by a retail store to other businesses for resale without further processing.

Billings.--Billings are the cost value(not retail) price of merchandise billed by the warehouses of retail multiunit organizations to retail stores within their own organization during 1948.

Sales size.--Each retail store included in the 1948 Census of Business was classified into one of eleven sales-size groups depending upon the volume of total sales and receipts of the store during 1948. The sales-size groups are as follows:

\$1,000,000 or more	\$30,000 to \$49,999
\$500,000 to \$999,999	\$20,000 to \$29,999
\$300,000 to \$499,999	\$10,000 to \$19,999
\$100,000 to \$299,999	\$5,000 to \$9,999
\$50,000 to \$99,999	\$2,000 to \$4,999
Less than \$2,000	

Size of organization

Single and multiunit stores.--A store is classified as a single unit if it is operated by a firm which operated only one store, or no other store in the same general kind of business as the store concerned. A store is classified as a multiunit if it is one of two or more stores in the same general kind of business operated by the same firm.

A store is considered to be in the same general kind of business as another store when both are classified in the same kind of business or in the same major kind-of-business group. For the purpose of classifying multiunit stores, each of the following major kind-of-business groups are separate entities:

- Food group
- Eating and drinking places
- General merchandise group, general stores
- Apparel group
- Furniture, furnishings, appliance group
- Automotive group
- Lumber, building, hardware group
- Drug and proprietary stores
- Second-hand stores

In addition, as grouped below, the following retail kinds of business were considered to be the same general kind of business:

1. Fuel dealers (except fuel oil), fuel oil dealers, and ice dealers
2. Hay, grain and feed stores and farm and garden supply stores
3. Book stores and stationery stores
4. Sporting goods stores and bicycle stores

A "one store" firm single unit is a retail store operated by a firm which operates only that one retail store. A "multistore" firm single unit is a retail store operated by a firm which operates two or more retail stores, but no

other retail store in the same general kind of business as the store concerned. Example: A firm operates three retail stores; a grocery store, a hardware store, and a cigar store. All three of these stores are single units of a "multistore" firm for Retail census purposes since each store is classed in a kind of business which is not the same general kind of business of any other store in the same firm.

The "number of units" class for a multiunit store is determined by the number of stores in the same general kind of business operated by the same firm.

Firms with four or more retail stores.--These are firms which operated four or more retail stores in 1948. The retail stores of these firms might be classified in one or more different kinds of business, but the firm was classified in that kind of business from which it derived the major portion of its receipts. The "number of stores" class for each store of a firm is determined by the total number of retail stores operated by each firm.

Stores operated entire year (See Part- and full-year operation.)

Stores not operated entire year (See Part- and full-year operations.)

Trucks

Trucks and truck-tractors.--Trucks are distinguished from truck-tractors in that the pay-load is hauled on the truck whereas, in the case of the truck-tractor, it is towed in a semitrailer.

Manufacturers' rated capacity.--This is the rating assigned by the truck manufacturer. It should be noted that there is no exact relationship between such rated capacity and the actual load-carrying capacity. For example, trucks rated 1-1/2 tons can and do frequently carry loads of several tons. However, classification by manufacturers' rated capacity was used in the 1948 Census of Business since it was the only uniform basis for size indication available at that time. In spite of its limitations in indicating pay-load capacity, manufacturers' rated capacity does make it possible to evaluate the usage of light trucks, medium trucks, and heavy trucks in a given kind of business, and between different kinds of business.

Stores reporting data on trucks and truck-tractors.--These are stores which reported whether or not they operated trucks and truck-tractors during December 1948.

Stores not operating trucks and truck-tractors.--These are stores which stated that they did not operate a truck or truck-tractor.

Stores operating trucks and truck-tractors.--These are stores which reported operation of some trucks and truck-tractors during December 1948.

Stores not reporting data on trucks and truck-tractors.--These are stores which failed to report whether or not they operated trucks and truck-tractors.

INSTRUCTIONS.—All retail places of business are included in the 1948 Census of Business. A separate report must be prepared for each such place of business which you owned or operated in 1948. The Census of Business covers operations for the full year 1948.

Establishments with 1948 sales volume of less than \$100,000 must report on this form unless otherwise instructed. Each retail place of business with sales of \$100,000 or more in 1948 and each retail unit (regardless of size) of an organization having more than one place of business must be reported on Form BC-21 and not on this form. If there are leased departments or concessions at this place of business, read instructions under inquiry 6 before preparing this report.

11. ANALYSIS OF SALES BY MERCHANDISE LINES:

Select the block that applies to your particular kind of business. Check the kind of business and report actual or estimated sales of each merchandise line in the block. Sales of merchandise lines and other receipts for which spaces are not provided in the selected block should be combined and shown on the line "other sales." If the

amount of these "other sales" exceeds ten percent of your total sales, select a second block that next most closely applies to your particular kind of business. Only the merchandise lines that were grouped in the "other sales" in the first block should be reported in the second block.
